

INTERNATIONAL NAVAL SURVEYS BUREAU (INSB)

MISSION

I.N.S.B. is dedicated in promoting and rendering technical services to the shipping industry with the primary aim of safe guarding the safety of life and human property at sea and by preventing the pollution of the natural environment.

The I.N.S.B.'s mission is entailed through its technical, security assessment and verification activities against a cluster of maritime safety standards and requirements during design, construction and operational maintenance of ships and marine related facilities.

QUALITY AND ENVIRONMENTAL POLICY

I.N.S.B. and its personnel are committed in exercising their duties with impartiality technical readability and adequacy. It is the policy of I.N.S.B. to be responsive to the individual and collective needs of our clients as well as those of the public at large, to provide quality services in support to our mission.

One of the key drivers of I.N.S.B. is to instil an emphasis on quality management in all aspects of I.N.S.B. activities, thus all of our client's commitments, supporting actions and services rendered must be recognised as expressions of quality.

We have developed and applied a Quality Management System according to ELOT EN ISO 9001:2000 requirements.

We pledge to monitor our performance as an ongoing activity and to strive for continuous improvement.

We commit to operate consistent to the applicable environmental legislation and requirements thus providing a sound framework for establishing and reviewing objectives and goals.
